EDUCATION

Shri Ram College of Engineering & Management **2015 – 2019**
B.Tech - Computer Science and Engineering - **66.26%**

TECHNICAL SKILLS

Frontend: Javascript, Typescript, React.js, Redux, HTML, CSS, Tailwind.
Backend: Node.js, Express.js, MongoDB, Mongoose, SQL.
Technologies/Tools: VS Code, Git, Github, Linux.
Other skills: OS, Web-Research, MS-Office, Software-Testing, Ad. Search-Techniques, Troubleshooting.

PROJECTS

E-Commerce Websites ↗ | React.js, Tailwindcss, MongoDB, Express.js, Node.js **2024**
→ Developed a responsive e-commerce website for GSD Organics using the MERN stack, featuring a user-friendly interface, secure payment integration, efficient order management, and an admin panel for inventory control. Ensured a seamless shopping experience with optimized performance and mobile compatibility.

Pokémon Finder ↗ | React.js, Tailwindcss, HTML, CSS, JavaScript. **2024**
→ Pokémon Finder is an interactive web application built with React.js and Tailwind CSS that enhances the Pokémon search experience. With 100% responsive design, it ensures seamless usability across devices, while real-time data fetching from the Pokémon API provides 100% accurate and up-to-date information.

Logic: Pokémon Finder leverages React.js hooks like useState for dynamic state management and useEffect for seamless API integration, offering real-time Pokémon data.

Currency Converter ↗ | HTML, CSS, JavaScript **2024**
→ Built a sleek Currency Converter application using HTML, CSS, and JavaScript, showcasing skills in real-time API integration for accurate exchange rates. Designed a dynamic, user-friendly UI with 100% responsive input handling and optimized interactivity, ensuring an enhanced user experience.

Logic: The currency converter app uses JavaScript to fetch real-time rates via API, enabling instant conversions with interactive UI updates.

Todo List Application ↗ | React.js, Tailwindcss, HTML, CSS, JavaScript. **2024**
→ Created a To-Do List app using React and Tailwind CSS, achieving complete functionality in task management and persistent local storage. Boosted productivity by 85% with optimized state handling and an intuitive interface.

Logic: Utilized React hooks like useState for state management, efficient event handling, and local storage for seamless task addition, deletion, and completion tracking.

EXPERIENCE

Gau Seva Dham Hospital & Research Centre **Feb 2025 – Present**
Web Developer Intern, CSR & Tech Operations Lead *Hodal, Haryana*
- Managed corporate social responsibility (CSR) initiatives, secured donations, and handled end-to-end technical operations, including data management and website development, to support organizational growth.

Damco Solutions Private Limited **Jan 2021 – Feb 2024**
Web Researcher *Faridabad, Haryana*
- Executed in-depth analysis of CRM data using Preqin, identifying key trends that informed strategic initiatives; findings were implemented to enhance client engagement, leading to a 15% increase in response rates
